

PIERRE KUNZ
GENEVE

LQ01 SR Lady Belle Epoque

In his Belle Epoque collection, Pierre Kunz pays homage to women and instils feminine emotion in to a square model whose shape fits all the curves of the wrist.

The mother-of-pearl dial embraces all the seasons and lights to accentuate its rays, Tahiti black, white or pink mother-of-pearl are matched with carefully selected alligator skin.

The hours and minutes are indicated by art deco type numerals or simply with baguette settings, while the hands have been styled specially for this piece.

The retrograde seconds zone seems to have been inspired by the Parisian metro station entrance canopies.

Pierre Kunz has created an exquisite timepiece which propels us into a new and magnificent Belle Epoque.
